

Study Abroad

All students are strongly encouraged to spend an extended period of time studying or working in an English-speaking country.

Time spent abroad does not mean a "loss of time" – not even regarding the standard period of study. For the stay abroad, one or two semesters of leave can be granted; the advantage gained in language skills and academic knowledge will often have an accelerating effect on further studies.

We currently have exchange relationships with these universities (as of December 2023):
